

USING ICT TO SUPPORT TEACHING AND LEARNING

“In NZ, our lives are increasingly influenced by ICT which support, facilitate and shape the things that people do and the lives that we lead. The ECE sector can take advantage of the potential benefits of these technologies to enhance teaching and learning for children and educators.” Ministry of Education. (2005) Foundations for Discovery – ICT Framework for Early Childhood Education

Software		All handouts from this workshop are available from http://eceandict.wikispaces.com/	
Kidpix – http://www.fileplaza.com/home_education/kids_parenting/details/kidpix_deuxe.html			
AutoMotivator - poster maker http://wigflip.com/automotivator/?src=fp

Where to from here?

What do you know now that you didn't know before?

What new ideas are you going to tell colleagues about?

More importantly...

What action are you going to take **RIGHT NOW?**
